PRESS RELEASE MAY 1, 2017 07:00 CST

Bozeman, MT, May 1, 2017 (Newsire.com) - ***Savvy Traveler Co. courses intuitively teach language fundamentals in 4.5 audio media hours that can be watched and listened to on mobile devices.***

Savvy Traveler Co. is helping travelers and others to learn to cross the language bridge with all new language courses in Spanish, Italian and French. Savvy Traveler language courses are designed to bring the language learner's skills from zero to conversational in just 30 days. The courses are based on the 12-week language courses from The Alliance Française de Bozeman International Language School, which has more than 20 years of experience providing private tutoring, translation services, and teaching worldwide.

The courses are overlapped with all the most asked questions for English speakers learning Spanish, Italian, French and Chinese. The course includes 4.5 hours of audio media so learners can enjoy lifetime access to the course to refresh their skills whenever they would like. Each course also includes a private Facebook group of classmates and on-demand tutors from www.italki.com and professional teachers who are certified professionals and highly-skilled in the art of foreign language acquisition.

"Whether a language learner's main motivation is to converse with multilingual family, pass a high school or college class, travel more, or learn for business, these courses are tailored to help someone quickly become conversational," says [NEEDS QUOTE ATTRIBUTION], CEO of Savvy Traveler Co. Savvy Traveler language courses cater to travelers, business professionals, medical professionals, agricultural workers, service industry workers, and more. The company has
